

Only allow editing of the cell if the todo item is checked off.

```
tableView:canEditRowAtIndexPath:
```

```
TodoItem *item = [[TodoItem alloc] init];
```

```
return item.done;
```

Fill in the blank argument.

```
NSUInteger row = [todoItems indexOfObject:aNewItem];  
[self.tableView insertRowsAtIndexPaths:...  
withRowAnimation:UITableViewRowAnimationAutomatic];
```

```
@[[NSIndexPath indexPathForRow:row inSection:0]]
```

Toggle the bool value.

```
BOOL aBool;  
aBool = ...
```

```
aBool = !aBool;
```
